

ETCS Equipment & Technical Capabilities

Category	Equipment Name	Website Description	Photo
Presses	1000T Danly Press with Feed Line, 180" x 80", SH 53"	1000-ton press with feed line; large-bed capacity for high-tonnage production and tooling support.	
Presses	300T Verson Press with Feed Line, 96" Bed	300-ton press with feed line; suitable for medium-to-large stamping operations.	
Inspection & Measurement	Mitutoyo Crysta Apex CMM	CMM inspection system for dimensional verification and quality control.	
Inspection & Measurement	Faro Arm Quantum S Max	Portable metrology and scanning system for inspection, measurement, and reverse engineering.	
CNC & Machining	Makino Wire EDM	Wire EDM capability for precision cutting of tooling and complex components.	
CNC & Machining	Hurco VMX42 CNC Machine with Auto Tool Changer	CNC machining center with automatic tool changing for precision milling and toolroom work.	
CNC & Machining	Bridgeport 1	Manual milling machine for precision toolroom operations and general machining.	
CNC & Machining	Bridgeport 2	Manual milling machine for precision toolroom operations and general machining.	
Drilling	Radial Drill	Heavy-duty radial drilling capability for larger workpieces and tooling applications.	

ETCS Equipment & Technical Capabilities

Category	Equipment Name	Website Description	Photo
Grinding & Finishing	Dry Grinder 1	Dry grinding capability for tool finishing, touch-up, and maintenance.	
Grinding & Finishing	Dry Grinder 2	Dry grinding capability for tool finishing, touch-up, and maintenance.	
Grinding & Finishing	Wet Grinder 1	Wet grinding capability for controlled finishing and precision work.	
Drilling	Drill Press	Conventional drilling equipment for fabrication, repair, and maintenance work.	
Grinding & Finishing	Edge Grinder	Edge grinding capability for part preparation and finishing.	
Grinding & Finishing	Rough Grinder	Rough grinding equipment for material removal and initial finishing operations.	
Air Systems	30 HP Gardner Denver Air Compressor	Shop air system support for manufacturing operations and equipment needs.	
Air Systems	Ingersoll Rand Air Compressor	Compressed air capability supporting plant and toolroom operations.
